Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. The aggregated data in your workplace profile assists relevant employers in understanding the characteristics of their workforce, including in relation to occupational segregation, the position of women and men in management within their industry or sector, and patterns of potentially insecure employment.

NB. IMPORTANT:

• References to the Act means the Workplace Gender Equality Act 2012.
• A formal ‘policy’ and/or ‘formal strategy’ in this questionnaire refers to formal policies and/or strategies that are either standalone or contained within another formal policy/formal strategy.
• Data provided in this reporting questionnaire covers the TOTAL reporting period from 1 April 2016 to 31 March 2017. (This differs from the workplace profile data which is taken at a point-in-time during the reporting period).
• Answers need to reflect ALL organisations covered in this report.
• If you select “NO, Insufficient resources/expertise” to any option, this may cover human or financial resources.

1.13 If your organisation would like to provide additional information relating to gender equality indicator 1, please do so below.

Gender equality indicator 2: Gender composition of governing bodies

Gender composition of governing bodies is an indicator of gender equality at the highest level of organisational leadership and decision-making. This gender equality indicator seeks information on the representation of women and men on governing bodies. The term “governing body” in relation to a relevant employer is broad and depends on the nature of your organisation. It can mean the board of directors, trustees, committee of management, council or other governing authority of the employer.

2. The organisation(s) you are reporting on will have a governing body. In the Act, governing body is defined as “the board of directors, trustees, committee of management, council or other governing authority of the employer”. This question relates to the highest governing body for your Australian entity, even if it is located overseas.

2.1 Please answer the following questions relating to each governing body covered in this report.

Note: If this report covers more than one organisation, the questions below will be repeated for each organisation before proceeding to question 2.2.
If your organisation’s governing body is the same as your parent entity’s, you will need to add your organisation’s name BUT the numerical details of your parent entity’s governing body.

2.1a.1 Organisation name?

The Stockland Board is elected by our shareholders, this means we do not have direct control over Board appointments. Where a Board vacancy occurs or whenever it is considered that the Board would benefit from the services of an additional director the Board identifies the skills and experience it seeks to complement the competencies of the current Directors. In defining the Board’s requirements for a new Director, consideration is given to skills, professional experience and education of current Board members – including any identified skill gaps. Criteria includes consideration of gender diversity on the Board.

Gender equality indicator 4: Flexible working and support for employees with family and caring responsibilities

This indicator will enable the collection and use of information from relevant employers about the availability and utility of employment terms, conditions and practices relating to flexible working arrangements for employees and to working arrangements supporting employees with family or caring responsibilities.
