Ervin Graf, 1952

## OUR STORY

When Stockland was founded in 1952, Ervin Graf had a vision "to not merely achieve growth and profits but to make a worthwhile contribution to the development of our cities and great country".

Pursuing that vision has seen Stockland grow to become one of Australia's largest diversified property groups. We develop and manage retail centres, logistics and business parks, office properties, residential communities and retirement living villages. With the benefit of our diverse property skills, we connect different types of properties in shared locations, to create places that inspire people to gather, to share and to live life. We recognise our responsibilities to the environment and are a leader in sustainable business practices.

For over 60 years, we have worked hard to grow our portfolio of assets and projects. We have a long and proud history of creating places that meet the needs of our customers and communities.
