### RETIREES MAKE THE RIGHT MOVE TO SALFORD WATERS

There has never been a better time to move to Stockland's Salford Waters Retirement Estate at Victoria Point.

Stockland has unveiled a special offer to make your transition to the retirement community even easier.

New residents who reserve a home before 9 March 2012 will receive a \$10,000 cash bonus upon settlement.

As an additional contribution, Stockland will provide a free consultation with an experienced moving specialist to advise on all aspects of relocating.

These initiatives are designed to make the transition as easy as possible for new residents who can enjoy settling into their new community.

Salford Waters' location on Moreton Bay's Victoria Point is ideal for those who wish to remain close to Brisbane's amenities while enjoying the cooling bay breezes.

With the idyllic Moreton Bay waterfront right on the community's doorstep, residents enjoy scenic walks along the peaceful shore pathways.

Units are set around lush landscaped areas in a tranquil and sociable atmosphere. These green spaces are tended by staff so residents can enjoy them without the worries associated with property maintenance.

The community has a choice of living options to suit residents' individual needs. This includes pet-friendly one-bedroom or two-bedroom villas each with an open backyard.

One-bedroom serviced apartments are also available. These allow residents to experience the village's community facilities and social events without having to worry about the daily chores.

The full-time village manager and staff are available to provide personal support while the 24-hour Emergency Call System gives added peace of mind.

Smooth Moves Projects director Heather Wallach knows that the \$10,000 Stockland boost would cover many of the costs associated with moving house.

"The hourly labour costs of packing and unpacking plus the cost of the removal carrier can all add up, while moving larger items such as vehicles adds to the expense."

Ms Wallach is very familiar with the issues people face when moving home, including how to downsize possessions built up in a family home over many years.

“Making decisions about how to dispose of items can be challenging, although people feel liberated once the process is completed and they are in their new home,” she said.

“There are various ways to downsize your possessions such as through charitable donations, distributing items among family members, selling items at garage sales and also recycling.”

Anyone considering a move to Salford Waters Retirement Estate should act now as the offer by Stockland is only available until 9 March 2012.
