Introducing Yennora

Yennora Distribution Centre, Yennora NSW

Stockland is proud to offer two unique pre-lease opportunities at our Yennora Distribution Centre intermodal estate, one of the largest distribution centres in the southern hemisphere.

- 300,000 square metres of warehousing (approx.)
- 71,000 square metres container hardstand (approx.)
- 27 tenancies ranging from 1,500 to 34,000 square metres
- 2 new facilities of 9,100 and 13,500 square metres

Strategic advantage

Functionality

- 24 hour B-Double Access
- Multiple site access and exit points
- Strategically positioned in relation to major arterials
- Within walking distance of Yennora train station

Fit-out

- Stockland will consider racking and office fit-out as part of any incentive package

Scale

- Stockland's national portfolio comprises 25 Logistics & Business Park properties encompassing over 1.25 million square metres of building area

Flexibility

- 27 tenancies ranging from 1,500m² and 34,000m² ranging from \$80 per m² to \$125 per m²

Timing

- Stockland can offer immediate warehousing solutions as a staging solution for pre-lease opportunities

Savings

- Highly competitive rents and outgoings

Competitive advantage

- Direct rail access
- 24hr site security
- New office and seminar amenities available to all on-site customers

Site plan

Building 3 overview

- 12,500m² warehouse + 1,000m² office space
- 96 car parking spaces
- 41m truck court
- Minimum 10m warehouse clearance
- 4 sunken loading docks
- 10 on-grade doors and dock office
- 6 tonne point load floor
- Energy efficient features
- Direct rail frontage
- Direct access to over 20,000m² of container rated hardstand
- Access from 2 sides of the building

Building 8A overview

- 8,500m² warehouse + 600m² office space
- 88 car parking spaces
- 30m truck court
- Minimum 10m warehouse clearance, EFSR
- 7 on-grade doors
- 6 tonne point load floor
- Energy efficient features

Design specifications

The design and construction of Buildings 3 and 8A shall meet all Australian Standards, be in accordance with the regulations set out in the Building Code of Australia and meet all Authority requirements.

Warehouse

Concrete and floor slab

- Internal warehouse floors shall be finished with a double helicopter trowel for a burnished finish.
- The warehouse floor shall be designed for a minimum of 6.0 tonne point load and 35kPa UDL.
- Unlimited hard wheel forklift repetitions of 2.5 tonne lift capacity.

Structural steel

- Column free spans at centres of approximately 10.6 metres.
- Springing heights to a minimum of 10 metres.

External walls

- Precast concrete dado panels to 2,400mm high above floor level (3,000mm high where required to provide fire ratings for hydrants and services rooms in accordance with the BCA), painted externally with selected flat paint finish.
- Colorbond finish wall cladding to be fitted above precast concrete dado panels.
- Internally precast concrete panels are to be finished to a smooth steel trowelled finish.

Roof

- Zinalume sheeting with translucent sheets equal to minimum 10% of warehouse roof area.

Awnings and canopies

- Awnings to project a minimum of 9 metres from the face of the building over on-grade roller shutters and 3 metres over recessed docks.
- Awnings to be bird proof protected in an approved manner. Minimum 6 metre clearance under awnings to all structure and services.

Dock and access doors

- Docks at grade with 6.0 metre wide x 5.0 metre high motorised roller shutter doors.
- Roller shutter doors and guide covers to be painted with selected high performance paint or powder coat finish.
- Roller shutter doors to be individual slats of thickness suitable for door width and wind loads nominated by the Structural Engineer.
- All docks to be provided with an appropriate level of lighting to be functional 24 hours.
- Sunken docks with dock levellers and 2.7 x 3.6 metre high motorised roller shutter doors (dock configuration depends on site and design conditions and tenant requirements).

Warehouse lighting

- Lighting level to be 160 lux.
- Each third row of lighting to be switched separately to allow reduced 'night light' for security / safety out of operating hours.

Office

- The office areas will comprise glazed curtain walling / shop front glazing, painted CFC, masonry, concrete, and precast concrete or metal cladding to suit the architectural design.

Floor – Office floor slab

- Floor slabs to be designed for a live load capacity of at least 3kPa + 1kPa for partitions.
- Designated compactus areas of approximately 5% of each office floor level with a load capacity of 10kPa.

Services

Power capacity

- Premises design to accommodate a total supply load based on 25 VA/m² of warehouse, 120 VA/m² of office.

Mechanical

- Separate air conditioning systems will be provided to agreed zones within each office level.
- Each system will be zoned to maintain comfort conditions with office perimeters to be zoned separately to central office areas, entry stair and void areas to be separately zoned.

- No ducts or equipment apart from diffusers, thermostats and controls will be visible from the office space.

Ventilation

- As required by the BCA.

Fire services

- ESFR fire sprinklers to be provided relative to storage fire load and internal building height of the warehouse area.
- Hydrants, fire hose reels, smoke detection and extinguishers will be provided in accordance with the BCA, Australian standards or other relevant authorities requirements.
- Fire hose reels and hydrants within office areas are to be enclosed within a cupboard.

General site works

Signage

- Directional signage as required for efficient operation of the carpark area and estate.
- Tenants signage areas will be provided.
- Truck parking and turning aprons.
- Aprons and truck areas are designed to accommodate semi-trailers and B-Double vehicles to Australian standard turning circle requirements.

Landscaping

- Plants will be a selected range of Australian native ground cover.

Estate / facility operating hours

- The design of this project is to take into account that the built facility may operate on a 24 hour, seven day week basis.
- Final operating hours and conditions are subject to local authority approvals.

Environmental sustainability

- The building design is to include energy and water saving initiatives such as solar water heating, energy efficient lighting, native landscaping and rainwater collection for irrigation and toilet flushing, subject to local authority approval.
