

My place this Autumn

Thanks to those who participated in Stockland's 2018 Liveability Survey.

The survey was conducted for the first time in February, and asked local residents a range of questions to measure the liveability of The Grove as a community. The results will be released later this year.

Stockland's Liveability Survey is conducted every year and provides our residents the opportunity to have their say on what is working well and what they feel could be improved within their community.

The results of this survey produce the Stockland Liveability Index which is a single number ranging from zero to 100, that represents how satisfied residents are living at The Grove. The survey measures what drives liveability including community perceptions, satisfaction with community design elements, personal wellbeing, satisfaction with your own home, and education offerings and facilities.

The survey results will help Stockland to thoughtfully plan and develop The Grove in a way that further provides opportunities for community interaction and ultimately lead to the improved wellbeing of our residents.

Fun Times at the Launch of Aeroplane Park.

On Saturday 17th March, The Grove's aviation themed playground was officially opened for takeoff! Local residents of all ages thoroughly enjoyed the festivities at this free event.

The youngest of residents tested out the play equipment at this fantastic new playground, and by the looks of it, all seemed to approve of the design. Residents enjoyed cake, balloon making, in-flight snacks such as popcorn, creating their own paper aeroplanes, barista coffee, a BBQ, massages and face painting!

The club is forever growing and they welcome children and adults of all ages to reach out and find out more about the club. Are you ready to join the Titan Army?
